

APPLICATION FOR 2,4-D HARDSHIP PERMIT

Section X, Paragraph (D) of the Arkansas Regulations on Pesticide Classification does not allow the application of 2,4-D containing products that are labeled for agricultural use in Clay, Greene, Craighead, Poinsett, Cross, Crittenden, St. Francis, Lee, Phillips, and Mississippi Counties in Arkansas by ground or aerial application between April 15th and September 15th unless a Hardship Permit has been issued by the Plant Board. Said permit may be applied for by a producer by providing the required information and submitting the indicated permit fee to the Pesticide Division of the Plant Board.
